All priority exchanges are scheduled for completion by August 30, 2019, a date contingent upon the vendor commitment to dedicated resources and/or additional resources, as well as the ability to add additional administrative resources to execute testing activities concurrently. The integrated schedule has been modified to include the revised scope of work for primary exchanges, and milestones were structured to allow concurrent testing of exchanges. A vendor meeting is planned for May 9-10 to discuss the approach in order to meet the August deadline.

One interface will be used to send and receive vehicle registration queries and responses to and from DRIVES. The other interface will be used to receive stolen vehicle requests and responses to and from DRIVES.
